

FOR ANIMAL CONSUMPTION ONLY

Animate[®] C

Anionic Mineral for Non-Lactating Dairy Cows

Guaranteed Analysis:

Crude Protein (min)	25.0%
Equivalent crude protein from non-protein nitrogen (max)	31.0%
Calcium (min).....	4.5%
Calcium (max).....	5.5%
Magnesium (min)	5.5%
Sulphur (min)	7.0%
Chloride (min)	14.0%

Ingredients Selected From:

Magnesium Chloride, Ammonium Sulphate (30-60%), Sodium Bentonite (10-30%), Calcium Sulphate and Magnesium Oxide.

Net Weight: 1000 kg

Lot Number: 123456

Date of Manufacture: 08-Oct-2020

Directions for Use:

Feed a minimum of 14 and ideally 21 days prior to calving at a rate between 0.35 to 0.65 kg per head per day depending on the desired level of negative Dietary Cation Anion Difference (DCAD) of the diet. Feed continuously up to calving.

This product does not contain restricted animal material.

Animal Health Precautions:

While this product is not a source of the disease, feeding granular magnesium oxide to dairy cows may increase their risk of contracting salmonellosis. Salmonellosis is a multi-factorial disease and we highly recommend that you seek veterinary advice to ascertain potential risks associated with overuse and to determine measures that can be taken to reduce those risks for your specific environment.

<p>Signal Word: Warning</p> 	<ul style="list-style-type: none"> • Harmful if swallowed • Causes skin irritation • Causes serious eye irritation • May cause respiratory irritation • Harmful to aquatic life • Harmful to terrestrial vertebrates 	<ul style="list-style-type: none"> • Keep out of reach of children. • Read label before use. • Use only outdoors or in a well-ventilated area. • Wear protective gloves/protective clothing/eye protection/face protection; Wash exposed parts of body thoroughly after handling. • Do not eat, drink or smoke when using this product. • If medical advice is needed, have product container or label at hand. • Call a POISON CENTER or doctor if you feel unwell.
---	--	---
